Honda Gcv160 Engine In Lawn Mower Parts & Accessories for ...

Most mowers with 160cc engines will be able to do more or less the same job as one with a 190cc engine. This means you should only consider choosing a 190cc mower over a 160cc model specifically because of the larger engine if you are sure that the extra power is important for the work you need to do.

160cc vs 190cc Lawn Mower Engine: What's the Difference?

Most Honda lawn mowers use a traditional flywheel brake, which stops the engine and blade when released. One step up from this is the Roto-Stop Blade Stop System, which some HRR and HRX models have. The Roto-Stop BSS works much like a flywheel brake, but releasing the blade control lever stops the blade while keeping the engine running.
