Gemini was the first book I read of Penelope Wards' and it moved me in so many ways. At times I was publicly crying, and other times publicly laughing. The characters are real, and their story is believable. I thoroughly enjoyed Gemini, and highly recommend this and all other stories by Penelope Ward (Gemini 2, Skylar, step brother dearest).

Gemini could have been easily 4 or even 4.5 star for me if it wasn't for the pace. If you cut Gemini down by 30%, it would have been a fantastic read. I'm not a fan of Penelope Ward's style of writing. I find it very drawn out and dragging. The story line and plot was excellent, but it took forever to get to any points.
