Lens Repair (2): Major Parts of a Lens (Manual Focus) - My ...

I switch to manual focus and then aim at the target, lock in my focus and then I forget about it. I am going to be pressing the shutter button when birds enter the plane of focus. Since birds move quickly and change direction quickly, and since there is always a potential for the background to confuse the autofocus in those fast-moving situations, I prefer manual focus.

Getting The Best Out Of Manual Focus | Olympus

Using manual focus lenses can help you improve your photography. You have to slow down and think more about what you are doing while using a manual lens. Well, initially, you do. After some practice, you'll find manual focusing comes pretty naturally. So much attention in photography is on doing things fast.

Diversify Your Gear Options With Old, Manual Focus Lenses

Otherwise, this lens is sharp, sharp, sharp even at the corners. It is among Nikon's 10 best lenses ever! Read more about it here. If you want instant manual focus override you should look for Nikkor lenses that have an "M/A-M" switch. This means, if your lens is in "M/A" mode, you can just turn the focus ring if you are not satisfied with ...

How can I repair a kit lens with a stuck auto/manual focus ...

I have a Nikon 55-200mm DX auto focus lens. I recently repaired the bayonet mount myself - all went well. But when I went to use the manual focus option on the lens, the focus ring remained locked, as it is on autofocus.

F L U T O T ' S Camera Repair

Hello. I recently got an EF 50mm 1.8 lens for my EOS 60D. The automatic focus appears to be fine but turning the focus ring while in manual does not change focus at all. I've made sure that the lens is set to "MF" and I can see "M FOCUS" on my top display. I tried the lens on another camera and it...

Solved: EF 50mm 1.8 Manual Focus not Responding - Canon ...

The only one that was a problem was the 50 f1.4 that was repaired once under warranty for failed AF and it died a few years after for the same reason, that is a known issue with that particular lens. I "fixed" the issue by replacing it with a Sigma 50 f1.4 Art series lens which is my only non-Canon lens but it is one that definitely impresses me.

EF 70-200 1:4 L USM manual focus failure - Canon Community

By switching to manual you can tell the lens what you want to focus on so the white flower in front of a white background will be the point of focus in your shot. Action Photography

Ten Reasons When Manual Focus Is Better Than Auto Focus

Repair/Adjust/Clean Canon 17-55mm F/2.8 - Dropped and Slipping Focus: I dropped my main lens, the famous Canon 17-55mm f/2.8 IS, and broke the focus mechanism. Af wouldn't work at all, and the manual focus ring did nothing. Repair costs are said to be very expensive, so I decided to accept the risks (as you will too ...

Repair/Adjust/Clean Canon 17-55mm F/2.8 - Dropped and ...

1.7 and 1.4 50mm lenses as well as the 35 and 28mm f/2.8 have nearly identical construction and these photos can be used as a guide for all. The Minolta AF 50mm "normal" lenses are classic double Gauss designs and are similar to their MD/MC counterparts optically.

WARNING - This will fix the slipping manual focus issue but you will lose Auto Focus and risk burning out the Auto Focus motor if you use it in AF! If you ha...

Canon EF 70-200mm f4 L IS Manual Focus Fixed in 5 Minute ...

In manual focus, I couldn't budge the ring past half way and in auto-focus, the motor would whine with an unusual sound and not manage to move the focus past the same focal range. Fixing the lens There are a number of sites which detail fixing other problems on Canon lenses.

Fixing the focus on a Canon EFS 18-135mm lens - Larkinweb ...

This focal range makes an excellent portrait lens and a minimum focus distance of 1.2m means you can shoot a close up portrait. Note that I wouldn't recommend any manual focus long-telephoto for children playing, or for sports, as it is not as fast reacting as a modern autofocus lens. My second pick is the Minolta MD 35-70/3.5 Macro.
