You could not abandoned going considering books gathering or library or borrowing from your friends to gate them. This is an extremely simple means to specifically acquire guide by on-line. This online

### Minolta Manual Focus Forum - DrApp

This focal range makes an excellent portrait lens and a minimum focus distance of 1.2m means you can shoot a close up portrait. Note that I wouldn't recommend any manual focus long-telephoto for children playing, or for sports, as it is not as fast reacting as a modern autofocus lens. My second pick is the Minolta MD 35-70/3.5 Macro.

### The Unsung Heroes of 35mm Photography - Part III (Manual ...

Minolta made some of the best stuff in the game in my opinion and even though I had switched to Nikon before they left I was sad to see it happen. The 9xi was the pro version of the 7xi so you may want to look at it if you really wanting to focus on Minolta gear. I never owned this model, but I have no doubts it would be a great deal if bought ...

### Minolta Film Cameras | ThePhotoForum: Film & Digital ...

"I just wish that I could also use the many earlier Minolta ROKKOR Manual Focus lenses that I have here." I recently purchased an adapter which allows me to use my MC/MD lenses on my 7xi and 9xi (\$32 on Ebay). It has a glass element for infinity focus and the results are no different to what I normally achieve (99% of what I do is hand-held).

### Most desireable Minolta AF film camera pro body? | Photrio ...

This is the cheapest film on the market by a large margin, but it's also probably the worst in quality. I shot several rolls using different cameras and lenses and developed them with various developers including Rodinal, Fomadon LQN, Fomadon LQR, Paterson FX-39 and Kodak Microdol-X.

1. Minolta MD Rokkor-X 50mm f1.7. 2. Minolta MD Tele Rokkor-X 135mm f2.8. 3. Minolta MC W.Rokkor-SI 28mm f2.5. Does any one have experience with any of these (especially the 28mm f2.5)? Also, how far out can a Minolta manual lens focus on an Alpha without an infinity focus converter? I do not yet have a converter. Thanks for any and all assistance.

The manual focus version for MC/MD mount I don't think was as good, but some some research on the internet will turn up some samples and reviews I'm sure. Thanks @artuk, It was the 24mm f2.8 MD (AF) model I was looking at but I also want to use it for IR and it is one of the Minolta lenses not listed on Kolarvision's hotspot list as either being a good IR lens or bad.

### Minolta 24mm on Fuji X - Adapted Manual Lenses - Fuji X ...

I've no hands-on experience with Minolta gear but I've often thought of piecing together a nice manual focus kit. From what I've read during research the Minolta-Leica tech exchange that came about when Leica decided it was time to get serious about SLR's resulted in some wonderful Minolta primes with the 24mm Rokkor being mentioned in two of my Leica texts.
